

inShaper

Reference Manual

Feb 2026
v. 1.0

Welcome Note

When we created SkyDust, our first synthesizer, I really liked our waveform modifiers, which help us to shape the oscillators waveforms in very interesting ways. With inShaper, we are extracting those wave shapers from our virtual instruments and allowing them to process any type of audio. We know that distortion comes in many forms and shapes, and the goal of inShaper is to allow users to obtain creative distortion results. For instance, why not use an LFO, in sync with music, to change the type or amount of distortion of a track? Regardless of your use of inShaper, either in a very subtle way or with aggressive destruction, I hope you enjoy it. As always, don't hesitate to send us your thoughts – we love user feedback.

Overview

Figure 1. Image 1

Upon opening the plugin, you'll notice that — like other Sound Particles products — it includes a **Top Bar (1)**. Below it are the **Mode selection buttons (2)**, which display the controls for each mode (**Single** or **Dual**).

Both modes share two common sections: the **LFO (3)** at the bottom of the interface and the **Output section (4)** on the right side of the window.

Each mode has its own features and parameters, which are explained later in this manual. In general, the differences are:

- **Single**: Uses **one** shaper waveform to process the input signal
- **Dual**: Uses a combination of **two** shaper waveforms to process the input signal

Top Bar

The inShaper top bar includes a set of features to assist you while using the plugin. These features include window scaling, parameter randomization, and preset management, all designed to enhance your experience with the plugin.

Figure 2. Top Bar

In the top bar you will see the following options:

1. **On/Off** - Activate or deactivate the plugin.
2. **GUI Zoom** - The inShaper GUI can be resized. The pop-up available at the top left of the interface allows users to choose a scale value, from 25% to 400%. This action only affects the currently selected inShaper instance. New instances of the plugin will be opened with the default size factor (100%), but you have to choose another size factor as a default (Set as default).
3. **Randomize** - This dice button will generate random presets, allowing you to have endless possibilities. If you are looking for happy accidents, this feature is for you. Sometimes you may have mad presets, other times you may have a diamond in the rough.
4. **Preset Navigator** - This feature enables users to effortlessly navigate through the saved presets using arrows located on either side of the preset pop-up menu. By clicking these arrows, users can quickly move between previous and next presets. Clicking on the Preset Navigator opens the Presets list, providing access to the full preset list for further exploration.
5. **Format** - Choose the right input format for your track from the following options:
 - a) This button only appears when there's more than one format to choose from. For example, if a track has two channels, the only available option is **Stereo**, so the button is hidden.
 - Mono
 - Stereo
 - LRC
 - LRCS

- NHK 22.2
- Sony 360

Modes and Controls

At the top of the plugin window, just below the top bar, you can switch between the two modes. This option is visible on both pages and allows the user to quickly switch between them.

Single

We'll start by explaining the Single mode.

Figure 3. Single

On this mode you will have access to the following:

- 1. Shaper** - By changing the shaping curve, the Shaper alters the signal's harmonics and character, ranging from subtle saturation to aggressive distortion
 - a) Clicking on the waveform will open the **shaper selector panel**
- 2. UI Freeze** - A display/performance option that pauses real-time interface updates (meters, graphs, animations) to reduce CPU/GPU usage. Audio processing continues normally while the UI remains static

3. **Drive** - Controls how hard the input signal is pushed into the distortion stage. Higher Drive increases saturation/distortion, harmonic content
4. **Gain** - Controls the output level after processing
5. **Modifier** - Controls how strongly the selected shape affects the neutral waveform
6. **Bias** - Adds a constant offset to the waveform before shaping. This makes distortion asymmetric, changing the harmonic balance and often adding stronger even-order harmonics
7. **Link** - Couples the **Drive** and **Gain** parameters. This allows you to adjust **Drive** while keeping the output level more consistent.
8. **Oversampling** - Processes the distortion stage at a higher internal sample rate to reduce aliasing (unwanted high-frequency artifacts). Higher oversampling can improve sound quality but increases CPU usage

Dual

Now, the Dual mode.

Figure 4. Dual

On this mode you will have access to the following:

1. **Shaper 1** - By changing the shaping curve, the Shaper 1 alters the signal's harmonics and character, ranging from subtle saturation to aggressive distortion
 - a) Clicking on the waveform will open the **shaper selector panel**
2. **Shaper 2** - By changing the shaping curve, the Shaper 2 alters the signal's harmonics and character, ranging from subtle saturation to aggressive distortion

a) Clicking on the waveform will open the **shaper selector panel**

3. **Modifier Mix** - Controls how the combined effect of **Shaper 1** and **Shaper 2** shapes the signal, adjusting its harmonics and character from subtle saturation to aggressive distortion
4. **UI Freeze** - A display/performance option that pauses real-time interface updates (meters, graphs, animations) to reduce CPU/GPU usage. Audio processing continues normally while the UI remains static
5. **Drive** - Controls how hard the input signal is pushed into the distortion stage. Higher Drive increases saturation/distortion, harmonic content
6. **Modifier** - Controls how strongly the selected shape affects the neutral waveform
7. **Bias** - Adds a constant offset to the waveform before shaping. This makes distortion asymmetric, changing the harmonic balance and often adding stronger even-order harmonics

a) If a waveform is already asymmetric, the bias becomes greyed out

8. **Gain** - Controls the output level after processing
9. **Link** - Couples the **Drive** and **Gain** parameters. This allows you to adjust **Drive** while keeping the output level more consistent.
10. **Oversampling** - Processes the distortion stage at a higher internal sample rate to reduce aliasing (unwanted high-frequency artifacts). Higher oversampling can improve sound quality but increases CPU usage
11. **Waveshape Display** – A visual representation of the combined result of two waveshapes. It shows how the sum of both shapes interacts to form the final shaping curve applied to the signal, helping you understand the resulting harmonic character

Shaper Selector Panel

1. **Shaper** - By changing the shaping curve, the Shaper alters the signal's harmonics and character, ranging from subtle saturation to aggressive distortion
2. **Modifier** - Controls how strongly the selected shape affects the neutral waveform
3. **Bias** - Adds a constant offset to the waveform before shaping. This makes distortion asymmetric, changing the harmonic balance and often adding stronger even-order harmonics
4. **Drive** - Controls how hard the input signal is pushed into the distortion stage. Higher Drive increases saturation/distortion, harmonic content
5. **Gain** - Controls the output level after processing
6. **Apply** - Apply changes

7. **Cancel** - Cancel changes

LFO

In the LFO section you'll find the controls for the LFO. The LFO acts as a source of modulation for the desired parameter.

Figure 5. LFO

1. **On/Off** - Enables or disables the LFO
2. **Rate** - Sets the speed of the LFO cycle. Higher values produce faster modulation
3. **Depth** - Controls the amount (intensity) of modulation applied to the target parameter. Higher Depth results in a wider modulation range
4. **Offset** - Shifts the LFO phase
5. **Channel** - Creates a phase offset on the control of each channel by the LFO
6. **Sync** - Syncs the LFO Rate to the host tempo. When enabled, Rate is set in musical values (e.g., 1/4, 1/8, dotted, triplets) instead of Hz
7. **Mode** – Defines how the modulation signal is applied to the target parameter
 - a) Bipolar: Modulates above and below the original value
 - b) Positive: Modulates only upward from the original value
 - c) Negative: Modulates only downward from the original value
8. **Waveform** - Selects the shape of the LFO cycle (such as sine, triangle, square, or random), defining how the modulation value changes over time
 - a) Clicking on the waveform will open the **LFO selector panel**
9. **Modifier** - Adjusts how the LFO waveform is transformed before being applied to the target parameter, allowing for variations in the modulation's shape and behavior
 - a) If a waveform cannot be affected by any modifier, this becomes greyed out

LFO selector panel

1. **Waveform** - Selects the shape of the LFO cycle (such as sine, triangle, square, or random), defining how the modulation value changes over time
2. **Modifier** - Adjusts how the LFO waveform is transformed before being applied to the target parameter, allowing for variations in the modulation's shape and behavior
 - a) If a waveform cannot be affected by any modifier, this becomes greyed out
3. **Depth** - Controls the amount (intensity) of modulation applied to the target parameter. Higher Depth results in a wider modulation range
4. **Offset** - Shifts the LFO phase
5. **Channel** - Creates a phase offset on the control of each channel by the LFO
6. **Apply** - Apply changes
7. **Cancel** - Cancel changes

Output Section

inShaper has an output section dedicated to the parameters that modify the already processed audio. These are the parameters:

1. **Dry/Wet** - Controls the balance between the unprocessed (**Dry**) signal and the processed (**Wet**) signal.
2. **Master** - Controls the output level of the plugin.

The current signal levels are visible in the VU meters located on the right side of the interface.

Figure 6.
Output Section

Bottom Bar

On the bottom of the window you also have access to a bottom bar with useful features:

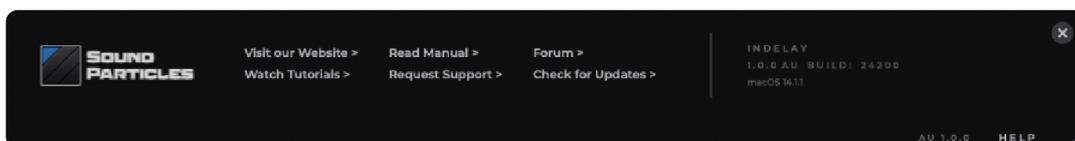

Figure 7. Bottom Bar

- 1. Tooltips' section** - Every time you move the mouse cursor over a knob or any control, you will see a short description of that parameter.
- 2. Update** - If the plugin is running on a computer with Internet access, it can detect if a newer update is available, informing the user, by showing a blinking phrase on the bottom of the display.
- 3. Help button** - Open the Help Panel, which shows additional information and useful links.
 - a) Visit our Website** – Link to soundparticles.com
 - b) Watch Tutorials** – Link to inShaper [tutorials](#)
 - c) Read Manual** – Web version of this Manual.
 - d) Request Support** – Redirect users to the requested support page. This will automatically retrieve some data about your setup (OS, CPU, RAM, plugin version and host).
 - e) Forum** – Link to our user Facebook group, [Sound Particles Forum](#).
 - f) Check for Updates** - Access soundparticles.com to check if there are available updates. Normally, usually a new update comes out, the plugin automatically shows it but you can use this to be sure your version is up to date.
 - g) Resize button** - Users are allowed to use a custom scaling factor by dragging the cursor in the bottom-right of the plugin's interface. Performing this makes the zoom pop-up display the custom value of the scaling. **Please note that hosts may deal differently with plugin resizes.*

Plugin and Presets Location

Installing inShaper copies the plugin into appropriate plugin folders, and the hosts will automatically recognize them. It also allows inShaper users to choose a custom folder for the installation, in both operating systems — MacOS and Windows.

On MacOS, the default paths for inShaper plugin architectures are the following:

- VST3: /Library/Audio/Plug-Ins/VST3
- AU: /Library/Audio/Plug-Ins/Components
- AAX: /Library/Application Support/Avid/Audio/Plug-Ins

On Windows, the default paths for inShaper plugin architectures are the following:

- VST3: C:\Program Files\Common Files\VST3
- AAX: C:\Program Files\Common Files\Avid\Audio\Plug-Ins

PRESETS LOCATIONS

User presets will be stored in a .spp file in the following locations:

On MacOS, the path for inShaper User presets is the following:

- /Users/*USERNAME*/Library/Application Support/Sound Particles/inShaper/Presets

On Windows, the path for inShaper User presets is the following:

- C:\Users*USERNAME*\AppData\Roaming\Sound Particles\inShaper\Presets

**USERNAME* is your login name. Your user Library folder may be hidden, in which case you can select the “Go To Folder” option in the Go menu of the Finder, enter “~/Library”, and click OK.

***USERNAME* is your login name. AppData may be hidden; use the explorer view options to show system files.

Tips

- Clicking on a VU meter resets the clipping alert.
- Option(Mac)/Control(Windows) + click on a parameter resets its value to default.

Additional Notes

CHECK FOR UPDATES

If the plugin is running on a computer with internet access, it is able to detect if a newer update is available, informing the user of the existence of a new update, by showing a blinking phrase on the bottom bar of the plugin.

To achieve that, Sound Particles inShaper plugin tries to access a simple XML file located at <https://www.soundparticles.com>.

SOUND PARTICLES INSHAPER DOES NOT SEND ANY INFORMATION FROM THE USER OVER THE INTERNET.

SUPPORT

If you detect a bug, if you have a crash, if you believe something is not perfect, or even if you have ideas for future versions, don't hesitate, and email us at support@soundparticles.com. We REALLY want to hear from you. Sometimes a bug lives on for too much time, simply because we haven't detected ourselves and we didn't receive any feedback from the affected users. Besides that, your feedback is very important to us.

Help us help you

EULA

END USER LICENSE AGREEMENT OF SOUND PARTICLES – JANUARY 2020

I. GENERAL

The following End User License Agreement ("EULA") represents an agreement between you ("Licensee") and "Sound Particles, S.A.", with head office at IDD, Rua da Carvalha, 570, 2400-441 Leiria, Portugal (hereinafter "Sound Particles") for the use of software including related media documentation (for example, program descriptions and manuals) and other documents and materials manufactured by Sound Particles (the "Product(s)").

By installing the software on your computer, you declare yourself in agreement with these conditions. If you do not agree with these conditions, you must not install the software or use it.

II. SCOPE OF USE

The Products are intellectual property of Sound Particles and are protected by law. Licensee, as purchaser of the Products, acquires only a limited, non-exclusive and non-transferable license to use, personally or professionally, the Products. Any other use or exploitation not explicitly granted to Licensee in this EULA shall not be allowed without prior written consent from Sound Particles. Specifically, Licensee is not entitled to copy, decompile, reverse engineer the Product or parts thereof, create derivative works from the Products or sublicense or provide the Products as "software as a service".

Licensee must ensure by appropriate and reasonable steps that third parties, including its own employees, cannot make unauthorized use of the Product. Licensee shall be liable to Sound Particles for any loss or damage in this context.

The Software is being licensed to you and you hereby acknowledge that no title or ownership in the Software is being transferred or assigned and this EULA is not to be construed as a sale of any rights in the Software. Sound Particles retains all right, title and interest in the Products, including, but not limited to, all copyrights, trademarks, trade secrets, trade names, proprietary rights, patents, titles, computer codes, audiovisual effects, themes, settings, artwork, sound effects, musical works, and moral rights whether registered or not and all applications thereof.

- 1.** Sound Particles grants Licensee the non-exclusive right without restrictions in time or place to use the Products. Sound Particles is not obliged to disclose the Products' software underlying source code, including the associated development documentation.
- 2.** Licensee may either:
 - a)** Install and use the licensed Products' software on several devices (e.g. one laptop, one desktop), provided that the said software is used only by the same single person - Per user licensing. Simultaneous use on more than one hardware device is not permitted.
 - b)** Install the licensed Products' software on a single device, allowing its use by several users on the device (e.g. studio computer) - Per seat licensing.
- 3.** Licensee may copy the licensed Products' software, only if such reproduction is necessary for the contractually agreed use. Licensee is authorized to create a backup, only if this is necessary to secure the future use.
- 4.** Licensee is not authorized to modify the Products' software.
- 5.** Licensee shall not attempt to develop any software that contains the "look and feel" of any of the Products' or is otherwise derivative of its software.
- 6.** Third Parties
 - a)** Renting or lending the licensed Products' software to a third party is expressly forbidden. Apart from that and if not provided otherwise within this EULA, Licensee may leave the software to a third party for a certain amount of time, if the third party agrees to the terms of this EULA and Licensee does not use the software during this period.
 - b)** Except if otherwise stated within this EULA, Licensee may resell the software to a third party or transfer the software permanently free of charge, provided the third party agrees in writing with this EULA and Licensee ceases all use of the software, completely removes all installed copies of the software from its computer and – if the software was not purchased via download – deletes or transfers the original data storage to the third party (if Licensee is not obliged to a longer storage by law). In addition, Licensee is required to de-register the purchased software with Sound Particles. Following respective request from Licensee via its email address registered with Sound Particles, the serial number of the Product will be transferred by Sound Particles to the third party, and at the same time the registration of Licensee for the Product purchased will be deleted.

- 7.** Licensee may not (i) distribute, lease, license, sell, rent, lend, convey or otherwise transfer or assign the Products or any copies thereof, (ii) make publicly available or available on a network for use or download by multiple users, (iii) remove, obscure or modify any copyright, trademark or other proprietary rights notices, marks or labels contained on or within the Products, falsify or delete any author attributions, legal notices or other labels of the origin or source of the material
- 8.** In addition, for certain Products from Sound Particles the following shall apply:
- a)** Bundles (product bundles consisting of hardware and software or software-only bundles) can only be resold / transferred as a whole. The individual components of a bundle must not be resold / transferred separately.
 - b)** Any Products from Sound Particles labeled or otherwise provided to you as "NFR" (Not For Resale) shall only be used for demonstration, testing and evaluation purposes. NFR Products must not be used for commercial purposes, and must not be resold or transferred. NFR Products are exempt from update, upgrade or crossgrade offers and cannot be purchased with or exchanged for vouchers or coupons.
 - c)** Any Products from Sound Particles labeled or otherwise provided to you as an EDU (Educational) version shall only be used by students or those working in educational institutions. This definition includes students, faculty, staff and administration attending and / or working at an educational institutional facility: private / public schools, training facilities, colleges, universities and similar. EDU Products must not be used for commercial purposes, and must not be resold or transferred. EDU Products are exempt from update, upgrade or crossgrade offers, and cannot be purchased with or exchanged for vouchers or coupons.
 - d)** Any Products from Sound Particles labeled or otherwise provided to you as "Demo Versions" or similar, shall only be used for demonstration, testing and evaluation purposes. Demo Versions must not be used for commercial or public purposes, and must not be resold or transferred.

If you are not sure which license type you own – (FULL / NFR / EDU) – please contact our Support Team.

III. THIRD PARTY RIGHTS

Some content included in Sound Particles software Products, as well as any associated intellectual property rights and titles, belongs to third parties. This content may be protected by copyright or other intellectual property laws and treaties and

may be subject to terms and conditions from the third party providing the content.

FFmpeg Notice - The Software utilizes the FFmpeg video application and its included libraries. FFmpeg is a trademark of Fabrice Bellard (originator of the FFmpeg project - FFmpeg project, <http://www.ffmpeg.org>) licensed under the [GNU Lesser General Public License 3.0](#) and its source can be downloaded [here](#).

IV. DUTIES TO PROTECT

Copyright notices, serial numbers and other identification features of the program may not be removed from the software or altered in any way.

V. WARRANTY, LEGAL LIABILITY, DAMAGES

DISCLAIMER OF WARRANTIES: YOU EXPRESSLY ACKNOWLEDGE AND AGREE THAT USE OF THE SOFTWARE IS AT YOUR SOLE RISK AND THAT THE ENTIRE RISK AS TO SATISFACTORY QUALITY, PERFORMANCE, AND ACCURACY IS WITH YOU. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, THE SOFTWARE IS PROVIDED "AS IS," WITH ALL FAULTS AND WITHOUT WARRANTY OF ANY KIND, AND SOUND PARTICLES HEREBY DISCLAIMS ALL WARRANTIES AND CONDITIONS WITH RESPECT TO THE SOFTWARE PRODUCT, EITHER EXPRESS, IMPLIED OR STATUTORY, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES AND/OR CONDITIONS OF MERCHANTABILITY, OF SATISFACTORY QUALITY, OF FITNESS FOR A PARTICULAR PURPOSE, OF ACCURACY, OF QUIET ENJOYMENT, AND NON-INFRINGEMENT OF THIRD PARTY RIGHTS. SOUND PARTICLES DOES NOT WARRANT AGAINST INTERFERENCE WITH YOUR ENJOYMENT OF THE SOFTWARE, THAT THE FUNCTIONS CONTAINED IN THE SOFTWARE WILL MEET YOUR REQUIREMENTS, THAT THE OPERATION OF THE SOFTWARE WILL BE UNINTERRUPTED OR ERROR-FREE, OR THAT DEFECTS IN THE SOFTWARE WILL BE CORRECTED. NO ORAL OR WRITTEN INFORMATION OR ADVICE GIVEN BY SOUND PARTICLES OR A SOUND PARTICLES AUTHORIZED REPRESENTATIVE SHALL CREATE A WARRANTY. SHOULD THE SOFTWARE PROVE DEFECTIVE, SOUND PARTICLES MAY CHOOSE TO REPLACE THE LICENSEE'S COPY OF THE SOFTWARE. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OF IMPLIED WARRANTIES OR LIMITATION ON APPLICABLE STATUTORY RIGHTS OF A CONSUMER, SO THE ABOVE EXCLUSION AND LIMITATIONS MAY NOT APPLY TO YOU. THIS LIMITATION OF WARRANTY SHALL NOT BE APPLICABLE SOLELY TO THE EXTENT THAT ANY SPECIFIC PROVISION OF THIS LIMITATION OF LIABILITY IS PROHIBITED BY ANY LAW, WHICH CANNOT BE PRE-EMPTED.

LIMITATION OF LIABILITY: TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, IN NO EVENT SHALL SOUND PARTICLES OR ITS AFFILIATES BE LIABLE FOR ANY SPECIAL, INCIDENTAL, INDIRECT OR CONSEQUENTIAL DAMAGES WHATSOEVER (INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF BUSINESS PROFITS, BUSINESS INTERRUPTION, LOSS OF BUSINESS INFORMATION,

OR ANY OTHER PECUNIARY LOSS) ARISING OUT OF THE USE OF OR INABILITY TO USE THE SOFTWARE OR DEFECT IN OR CAUSED BY THE SOFTWARE, INCLUDING BUT NOT LIMITED TO COMPROMISING THE SECURITY OF YOUR COMPUTER, OPERATING SYSTEM OR FILES, OR THE PROVISION OF OR FAILURE TO PROVIDE SUPPORT SERVICES, EVEN IF SOUND PARTICLES HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. IN ANY CASE, SOUND PARTICLES ENTIRE LIABILITY UNDER ANY PROVISION OF THIS EULA SHALL BE LIMITED TO THE AMOUNT ACTUALLY PAID BY YOU FOR THE SOFTWARE OR REPLACEMENT OF THE SOFTWARE WITH PRODUCT OF COMPARABLE RETAIL VALUE, AS SOUND PARTICLES MAY ELECT IN ITS SOLE DISCRETION. IF SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF LIABILITY, THE ABOVE LIMITATION MAY NOT APPLY TO YOU IN PART OR WHOLE. THIS LIMITATION OF LIABILITY SHALL NOT BE APPLICABLE SOLELY TO THE EXTENT THAT ANY SPECIFIC PROVISION OF THIS LIMITATION OF LIABILITY IS PROHIBITED BY ANY LAW, WHICH CANNOT BE PRE-EMPTED.

Licensee agrees to indemnify, defend and hold harmless Sound Particles and its affiliates and their respective officers, employees, directors, agents, licensees (excluding you), sublicensees (excluding you), successors and assigns from and against any and all liability, costs, losses, damages, and expenses (including reasonable attorneys' fees and expenses) arising out of any claim, suit, or cause of action relating to and/or arising from (a) your breach of any term of this EULA; (b) your violation of any rights of any third party; or (c) your use or misuse of the Software. Your indemnification obligations set forth in the immediately preceding sentence shall survive the termination of this EULA.

VI. CLOSING PROVISIONS

1. If any stipulation of this EULA should be or become invalid, either completely or in part, this shall not affect the validity of the remaining stipulations. The parties undertake instead to replace the invalid stipulation with a valid regulation which comes as close as possible to the purpose originally intended.
2. **TERMINATION:** This EULA will terminate automatically if you fail to comply with its terms and conditions. In such event, you must destroy all copies of the Product and all of its component parts (including the software) and cease and desist from accessing any Products.
3. This Agreement shall be governed and construed by the laws of Portugal. The United Nations Convention for the International Sale of Goods shall not apply.

The exclusive place of jurisdiction with respect to all disputes based on or in connection with this Agreement shall be Leiria, Portugal. However, Sound Particles reserves the right to sue Licensee at Licensee's place of residence or place of business.

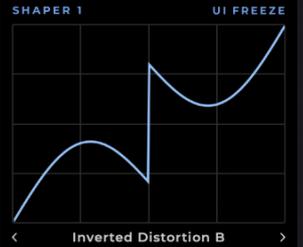

Should you have any queries concerning this EULA, please write to this address:
